

703-series

封头罐体抛光机

Dished head and tank polishing machine

产品功能和特点

Product functions and features

- ★ 支持封头(椭圆、蝶形、锥形)和罐体表面抛光, 兼容多种尺寸工件
Supports polishing of heads (elliptical, butterfly, conical) and tank surfaces, and is compatible with workpieces of various size
- ★ 支持多磨头配置, 提高打磨效率
Supports multiple grinding head configurations to improve grinding efficiency
- ★ 配备数控系统(CNC)和触摸屏控制面板, 可编程设置抛光参数, 减少人工干预
Equipped with CNC system and touch screen control panel, polishing parameters can be programmed to reduce manual intervention
- ★ 配备夹具和机械臂伸缩, 轻松应对不同工件尺寸
Equipped with fixture and telescopic robot arm, it can easily handle different workpiece sizes
- ★ 提供定制化配置, 支持焊接面矫平辊压设计
Provide customized configuration and support welding surface leveling roller design

基本参数
Basic parameters

有效加工罐直径范围 Effective processing tank diameter range	Ø219-Ø6000mm (Ø8.6"-Ø236.2")	抛光轮尺寸 Polishing wheel size	300*50*32mm (11.8*1.9*1.3")
有效加工罐长度 Effective processing tank length	≤9000mm (≤354.3")	砂带线速度 Belt speed	0-30m/s
砂带尺寸 Abrasive belt size	1880*50mm (74.0*2")	表面粗糙度 Surface Roughnes	≤0.1um
